Sir:

Pursuant to 37 C.F.R. §1.97, a list of documents is disclosed on the attached Form PTO/SB/08A - Information Disclosure Statement By Applicant. U.S. patents and/or patent publications are listed but not enclosed; foreign patents and/or publications, and/or other publications are both listed and enclosed.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to, anticipates, or renders obvious the claimed invention.

The cited documents disclose numerous specific features. There has been no attempt to list each and every feature disclosed by each document. The Examiner is requested to review the documents and determine the extent of the materiality of the document disclosures with respect to the claimed invention. The Examiner is requested to list these references of record in the application.

8793/91303

The citation of any documents herein is not to be construed as an admission that the art or

document disclosure is necessarily within the invention field of endeavor, that the art or document

disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent

application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by

the patent law with respect to the claimed invention and application.

Also, there is reserved the right to later set forth how the claimed invention is distinguished

over the disclosure of any document or other art, including the disclosures of the art and documents

recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

The recitation herein of the art and document(s) is not to be construed as an assertion that more

pertinent art could not possibly be in existence.
